Tennessee Nurse Aide Candidate Handbook

Introduction

Congress adopted the Nursing Home Reform Act in 1987 as part of the Omnibus Budget Reconciliation Act (OBRA '87). This federal law was designed to improve the quality of care in long-term healthcare facilities and define training and evaluation standards for nursing aides who work in such facilities. Each state is responsible for following the terms of this federal law.

As defined in the OBRA regulations, a nurse aide competency evaluation program provides specific standards for nurse aide-related knowledge and skills. A nurse aide competency evaluation program aims to ensure that candidates seeking to be nurse aides understand these standards and can competently and safely perform the job of an entry-level nurse aide.

This handbook describes the nurse aide competency examination process and is designed to help prepare candidates for testing. There are two parts to the nurse aide competency examination—a multiple-choice, knowledge/audio test, and a skill test. Exam candidates must be registered, complete approved training, pass both parts of the exam, and meet all other requirements of the Tennessee Health Facilities Commission (HFC) to be identified as a state-tested nurse aide and listed on the Tennessee Nurse Aide Registry.

The Tennessee Health Facilities Commission has approved D&S Diversified Technologies-Headmaster LLP to provide tests and scoring services for Tennessee nurse aide testing. For questions not answered in this handbook, please check the Tennessee webpage at www.hdmaster.com or contact D&S Diversified Technologies (D&SDT-Headmaster) at (877)201-0758. The information in this handbook will help you prepare for your examination.

General information regarding the Tennessee Nurse Aide program can be found on the HFC website at: <https://www.tn.gov/hsda.html>.

Americans with Disabilities Act (ADA)

ADA Compliance

The Tennessee Health Facility Commission and D&SDT-HEADMASTER provide reasonable accommodations for candidates with disabilities or limitations that may affect their ability to perform the nurse aide competency examination. Accommodations are granted in accordance with the Americans with Disabilities Act (ADA).

If you have a qualified disability or limitation, you may request special accommodations for examination. D&SDT-HEADMASTER must approve accommodations in advance of the examination. The request for accommodations can be found on the [D&SDT-HEADMASTER webpage](#) and by clicking on the PDF Fillable [ADA Accommodation Form 1404](#). Fill out the ADA Request and attach the required documentation found on the second page of the request form to an email to tennessee@hdmaster.com to be reviewed for accommodation.

ADA request forms submitted without supporting documentation of a diagnosed disability will not be accepted or reviewed.

Please allow additional time for your request to be approved. If you have questions regarding the ADA review process or specific required documentation, please call D&SDT-HEADMASTER at (877)201-0758.

No phone calls will be accepted.

Unforeseen Circumstances Policy

If an exam date is canceled due to an unforeseen circumstance, D&SDT-Headmaster staff will try to contact you using the contact information (phone number/email) we have on file to reschedule you for no charge to a mutually agreed upon new test date.

Therefore, you must keep your contact information up to date in case we need to contact you (**see examples below for reasons we may not be able to contact you that you are responsible for.*)

If D&SDT-Headmaster is unable to reach you via phone or email with the information in your TMU© account (**see examples below*) due to an unforeseen circumstance for a test event you are scheduled into, you will be taken out of the test event, and D&SDT-Headmaster will not reschedule you until we hear back from you.

NOTE: The *examples listed below are your responsibility to check and/or keep updated.

- If D&SDT-Headmaster leaves you a message or emails you at the phone number or email in your TMU© account and:
 - you do not call us back in a timely manner
 - your phone number is disconnected/your voice mailbox is full

You will forfeit all fees paid and must submit a new testing fee to schedule a new test event.**

- HFC-funded facilities are no longer billed a no-show fee per candidate. If your HFC-funded facility would like to pay your new testing fee so you can schedule an HFC-funded new test event, they may do so. They may contact D&SDT-Headmaster at (877)201-0758 or tennessee@hdmaster.com if they have any questions.

These fees partially offset D&SDT-Headmaster cost incurred for services requested and resulting work that is performed. **If a reschedule or refund request is not received before the one (1) full business day before a scheduled test event, excluding** Saturdays, Sundays, and holidays (see examples under Reschedule a Test Event and Refund of Testing Fees Paid), a NO-SHOW status will exist. You will forfeit your testing fees and must repay the full test fee to secure a new event.

Tennessee Nurse Aide Registry Certification

After successfully passing the Knowledge and Skill Test components of the nurse aide exam, your test results will be sent electronically to the Tennessee Health Facilities Commission Nurse Aide Registry by D&SDT-Headmaster. You will be placed on the Tennessee Health Facilities Commission Nurse Aide Registry and issued a certificate. You should receive your certification card from the Tennessee Health Facilities Commission Nurse Aide Registry within 4-6 weeks after successfully passing both exam components.

Retaking the Nurse Aide Exam

In the event that your test results inform you that you failed the knowledge and/or skill portion of the examination, you will be provided with detailed test diagnostics in your test results. You will have to retake the portion you failed. When you want to apply for a retest, you must repay for the portion you failed before you can schedule an exam date.

Tennessee Nurse Aide Candidate Handbook

You can schedule a test or re-test online by signing in to your TMU© account at tn.tmutest.com. (See screenshots under ‘**Schedule/Reschedule a Test Event**’ for rescheduling instructions.)

You will need to pay with a Visa or Master Card credit/debit card before you are able to schedule.

If you need assistance scheduling your re-test, please call D&SDT-Headmaster at (877)201-0758 during regular business hours, 8:00AM to 8:00PM Monday through Friday ET, or 7:00AM to 7:00PM CT, excluding Saturdays, Sundays, and holidays. We can assist you in scheduling a test or re-test date as long as your fees have been paid first.

Test Review Request

You may request a review of your test results or dispute any other testing condition.

***PLEASE READ BEFORE FILLING OUT THE TEST REVIEW REQUEST:** Please call D&SDT-Headmaster at (877)201-0758 during regular business hours, Monday through Friday, 8:00AM to 8:00PM ET/7:00AM to 7:00PM CT, excluding Saturdays, Sundays, and Holidays, and discuss the test outcome you are questioning before committing to sending the \$25 test review request deposit fee. Once you have further details about the scoring of your test, you will often understand the scoring process and learn how you can better prepare yourself for subsequent exam attempts. If, after discussion with D&SDT-Headmaster staff, you still have a concern with your testing process that affected the outcome of your exam, you may submit a Test Review Request.

There is a \$25 non-refundable test review deposit fee. To request a review, complete the [Test Review Request and Payment Application](#), available on the Tennessee TMU© main page (before you log in to your account) at tn.tmutest.com. Test Review Requests must be received **within three (3) business days** from the official scoring of your test (excluding Saturdays, Sundays, and holidays). Late requests will be denied and will not be considered.

Since one qualification for certification as a nurse aide in Tennessee is demonstrated by examination of minimum nurse aide knowledge and skills, the likely outcome of your review will determine who pays for any re-tests granted. The purpose of this review process is to ensure fairness and accuracy in the evaluation of your test. If, after investigation, the review finding is in your favor, you will be refunded the \$25 test review deposit. If the finding of the review is *not in your favor*, the \$25 test review deposit will stand, and the fee is non-refundable. D&SDT-Headmaster will review your detailed recollection, your knowledge test markings, and any skill task measurements you recorded at the time of your test, in addition to reviewing markings, notations, and measurements recorded by the RN Test Observer at the time of your test. We will interview the RN Test Observer, Actor, or Knowledge Test Proctor about the facts detailed in your dispute documentation. D&SDT-Headmaster will re-check the scoring of your test and may contact you and/or the RN Test Observer, Actor and/or Knowledge Test Proctor, and other candidates who were on-site at your test event for any additional information about the test event.

D&SDT-Headmaster cannot review test results or reviews with the candidate’s instructor/training program. After a candidate reaches the age of 18, D&SDT-Headmaster will only discuss test results or test reviews with the candidate. D&SDT-Headmaster will not review test results or reviews with family members or anyone else on behalf of the candidate once the candidate is 18. D&SDT-Headmaster will complete your review request within ten business days of receiving your timely review request and will email the review results to your email address and HFC.

The Manual Skill Test

- The Skill Test aims to evaluate your performance when demonstrating Tennessee-approved nurse aide skill scenarios (tasks). You will find a complete list of skill tasks in this handbook.

- You will be asked to re-present your ID that you showed the RN Test Observer at check-in.

Tennessee Nurse Aide Candidate Handbook

- Be sure you understand all instructions you read while in the waiting area before you begin your skill task demonstrations. You may not ask questions once the Skill Test begins and the timer starts. Once the Skill Test begins, the RN Test Observer may not answer questions.
- Your skill test will be scenario-based. Listen carefully to each scenario as it is read to you by the RN Test Observer. The computer randomly selects scenarios. The scenarios will direct you to demonstrate one or more of the tasks listed in this handbook. Each set of scenarios that make up your skill test will have the same overall difficulty, making each unique skill test equivalent.
- You will be allowed a maximum of **thirty-five (35) minutes** to complete your Skill Test. After 20 minutes have elapsed, you will be alerted that 15 minutes remain.
- Listen carefully to all instructions given by the RN Test Observer. You may request to have any of the scenarios repeated **at any time** during your Skill Test up until you run out of time or tell the RN Test Observer that you are finished with your skill task demonstrations.
- You must correctly perform all **key** steps (in bold font) and 80% of all non-key steps on each task assigned to pass the Skill Test.
- If you believe you made a mistake while performing a task, say so.
 - You will need to demonstrate the step or steps on the task you believe you performed incorrectly for the correction to be noted for the step.
- You may repeat or correct **any step** or **steps** on any task you believe you have performed incorrectly at **any time** during your allotted thirty-five (35) minutes or until you tell the RN Test Observer you are finished with the Skill Test.
- The skill task steps are generally not order-dependent unless the words BEFORE or AFTER are used in a step.
- When you finish each demonstration, verbally tell the RN Test Observer you are finished and move to the designated “relaxation area.” When the RN Test Observer and actor have set up and are ready for your next demonstration, the RN Test Observer will read the scenario for your next task.
- **All steps must be demonstrated. Steps that are only verbalized WILL NOT COUNT.**
 - Exception: Some steps in certain scenarios require you to verbalize while demonstrating.

Skill Test Recording Form

If your skill test includes a skill scenario that requires recording a count or measurement, the RN test observer will provide a recording form similar to the one displayed on the next page. You are required to sign the recording form during the equipment/supplies demonstration.

Tennessee Nurse Aide Candidate Handbook

Recording Form:

Candidate's Name: _____	
PLEASE PRINT	
PULSE: _____ <i>beats</i>	RESPIRATIONS: _____ <i>breaths</i>
URINARY OUTPUT: _____ ml	
BLOOD PRESSURE: _____ / _____ mmHg	
GLASS 1: _____	
GLASS 2: _____	
TOTAL FLUID INTAKE: _____ ml	FOOD INTAKE: _____ %
Candidate's Signature: _____	

Skill Test Scenarios

You will be assigned one of the following four scenarios with embedded hand washing using soap and water as your first mandatory scenario:

- Assist a Resident with a Bedpan, Measure and Record Output with required Hand Washing
- Catheter Care for a Male Resident with required Hand Washing **[DEMONSTRATED ON A MANIKIN]**
- Perineal Care for a Female Resident with required Hand Washing **[DEMONSTRATED ON A MANIKIN]**
- Put on an Isolation Gown and Gloves, Empty a Urinary Drainage Bag, Measure and Record Output, Remove the Gown and Gloves with required Hand Washing

You will also receive an additional two (2) or three (3) randomly selected scenarios from the skill task scenario listing below. The scenarios will direct you to demonstrate one or more of the tasks listed in this handbook. Each set of scenarios that make up your skill test will have the same overall difficulty, making each unique skill test equivalent. The TMU© skill test assignment algorithm randomly assigns scenarios. These selected scenarios will make up your personalized skill test.

Skill Tasks Listing

To receive credit, you must perform every step and demonstrate it during your skill test demonstration.

The steps listed for each scenario are required for a nurse aide candidate to successfully demonstrate minimum proficiency in the skill task for the RN Test Observer. The steps will be performed on a live resident actor for all but two tasks; the 'catheter care for a male resident' and 'perineal care for a female resident' scenarios will be demonstrated on a manikin.

You will be scored only on the steps listed. You must score 80% on each scenario without missing key steps (the **Bolded** steps) to pass the skill component of your competency evaluation. If you fail the Skill Test, one of the scenarios on your retest will be a scenario you previously failed. There will always be one of the first mandatory scenarios to start each Skill Test. The other scenarios included on your Skill Test are randomly chosen so that every Skill Test is comparable in difficulty and the average length of time to complete.

Tennessee Nurse Aide Candidate Handbook

The RN Test Observer will observe your demonstrations of your skill scenarios and record what they see you do. D&SDT-Headmaster scoring teams will officially score and double-check your test.

Note: The skill scenario steps included in this handbook are offered as guidelines to help prepare candidates for the Tennessee nurse aide skill test, and the steps included herein are not intended to be used to provide complete care that would be all-inclusive of best care practiced in an actual work setting.
