Introduction

Congress adopted the Nursing Home Reform Act in 1987 as part of the Omnibus Budget Reconciliation Act (OBRA '87). This federal law was designed to improve the quality of care in long-term healthcare facilities and define training and evaluation standards for nurse aides who work in such facilities. Each state is responsible for following the terms of this federal law.

As defined in the OBRA regulations, a nurse aide competency evaluation program provides specific standards for nurse aide (NA)- related knowledge and skills. The program aims to ensure that candidates seeking to be nurse aides understand these standards and can competently and safely perform the job of an entry-level nurse aide.

The nurse aide competency examination consists of a multiple-choice knowledge test and a skill test. Candidates must complete an approved Wisconsin Nurse Aide training program, pass both parts of the exam, and meet all Wisconsin Department of Health Services (DHS) requirements to be listed on the Wisconsin Nurse Aide Registry (WNAR).

Wisconsin has approved D&S Diversified Technologies LLP (D&SDT)-HEADMASTER LLP to provide testing and scoring services for the nurse aide competency exam and to maintain the Wisconsin Nurse Aide Registry.

For testing and scoring services, contact D&SDT-HEADMASTER toll-free at (888) 401-0462 or (888) 401-0465. For questions related to the WNAR, visit hdmaster.com.

This handbook is designed to provide information related to testing and registry services in Wisconsin, help you prepare for the Wisconsin nurse aide competency examination, and renew your current NA certification.

Registry

The Wisconsin Nurse Aide Registry (WNAR) lists nurse aides who, through training, testing, and experience, meet federal and state requirements to work as nurse aides in Wisconsin. The Registry lists the types of regulated facilities where a nurse aide is eligible to work and indicates any special certifications the nurse aide holds. Additionally, the Registry includes substantiated findings of caregiver abuse, neglect, misappropriation of client property, or exploitation involving a caregiver at a DHS-regulated facility.

A nurse aide candidate will be listed on the WNAR upon successfully completing training, passing both the knowledge and skills portions of the competency exam, and meeting federal and state requirements. Review the Nurse Aide Competency Exam section below to help prepare for the exam.

Registry Maintenance

Once placed on the WNAR, you are responsible for maintaining your demographic information so renewal notifications/alerts can be delivered to you in a timely manner. Do this by logging into your TMU© account at wi.tmutest.com. Your email address is your default username. If you're new to the system or have forgotten your password, see the instructions under **Forgot your Password and Recover your Account**. A valid email address will

receive a link to reset or create a password. Renewal reminders are emailed to your email address of record and texted to your SMS-capable phone, so keeping your contact information up to date is crucial.

You can check your registry status, update your address and phone number, and check your eligibility expiration date from any Internet-capable device.

DEMOGRAPHIC UPDATES / CHANGES / CORRECTIONS

Registry name changes (marriage/divorce, etc.) must be verified with appropriate documentation. Please complete the [DEMOGRAPHIC CHANGE/CORRECTION REQUEST FORM](#) and upload your name change documentation. The form is under 'Applications' on the Wisconsin TMU© main web page (before you log in to your account), or click on this link: <https://wi.tmutest.com/apply/12>.

Registry Renewal

To maintain eligibility to work in a federally certified facility (Medicare and/or Medicaid certified), you must renew your federal eligibility every 24 months. To be eligible to renew, you must have worked for pay as a nurse aide in a health care setting, such as a nursing home, hospital, home health agency, assisted living facility, or personal care agency, for at least eight (8) hours during the previous 24 months. You must complete paid work hours under the supervision of a registered nurse or licensed practical nurse. Please note that self-employment and private-duty experience are not recognized as work experience that qualifies for federal eligibility.

You will be eligible to renew your federal certification 90 days before the certification expiration date. You will begin receiving email and SMS notifications about your eligibility and where to submit your employment verification. To renew your eligibility, you will log in to TMU© at wi.tmutest.com and list your work hours and where you were employed. An email verification link will be sent to the employer contact on record. When the employer verifies your documented work experience, your federal eligibility will be extended an additional 24 months. Please note that out-of-state employers are not listed in TMU© but may still be eligible for certification renewal. Your employer should contact DHS to confirm work as a nurse aide for pay. DHS will review it to determine if it meets Wisconsin's requirements and extend federal eligibility accordingly.

Working in a hospital or a State-licensed facility only (not a federally certified Medicare and/or Medicaid provider) does not require you to report your employment history. This means that your federal eligibility to work in a federally certified facility will lapse. However, you still may work in a State-licensed facility and be listed on the WNAR as State-certified only. Hospitals or State-licensed facilities may request that nurse aides report their employment history to maintain federal eligibility by logging in to TMU© at wi.tmutest.com to verify work hours via the TMU© employer verification link.

Under federal regulations, a nurse aide becomes ineligible for employment in a federally certified (Medicare and/or Medicaid certified) nursing home, home health agency, or hospice if they do not perform at least 8 hours of nursing-related services for pay in a health care setting during a period of 24 consecutive months. To re-establish federal employment eligibility on the WNAR, you must successfully pass both components of the approved Wisconsin nurse aide competency examination. **Contact D&SDT-HEADMASTER for authorization to schedule the competency test to regain federal employment eligibility status.**

Nurse Aide / Medication Aide Registry Status

The Wisconsin Department of Health Services includes nurse aides (NAs) and medication aides (MAs) on the WNAR.

Nurse Aide: Upon completing a DHS-approved nurse aide training program and successfully passing the required knowledge and skill exams or completing an alternate DHS-approved route, individuals will be listed on the WNAR at wi.tmutest.com. A newly trained nurse aide candidate must pass the knowledge and skill exams within one (1) year of successfully completing a training program.

Medication Aide: A nurse aide in good standing with the WNAR who performs direct nursing duties and has completed a Wisconsin-approved medication aide course may administer certain medications in long-term care facilities. To be eligible to complete a medication aide course and be listed on the WNAR as a medication aide, a nurse aide must:

- Be at least eighteen (18) years of age;
- Have a high school diploma, High School Equivalency Diploma (HSED), or a General Education Diploma (GED);
- Be listed on the Nurse Aide Registry, with current eligibility to work in federally certified facilities;
- Have at least 2000 hours of experience in direct patient care in the past three (3) years;
- Have worked a minimum of forty (40) hours within the last ninety (90) days, or by the time the course clinical experience begins, caring for the same residents the student will be working with during the medication aide clinical experience;
- Be recommended in writing by the director of nursing and the administrator of the agency in which the student will be working during clinical experience; and
- Be recommended in writing by two (2) licensed charge nurses, one of whom must be a registered nurse.

If you successfully complete an approved medication aide course, your training program will assist you in submitting a Medication Aide Registry Application. Your medication aide status will be added to your record on the WNAR.

Training Exemptions: You may be exempt from taking a medication aide course if you are one of the following:

- Current nursing student who has completed a pharmacology course;
- Graduate nurse who does not hold a license; or
- A nurse aide who has been a medication aide in a nursing home in another state and has taken a medication aide training course determined to be equivalent to the Wisconsin-approved medication aide training course.

If you are one of the above and you wish to become a medication aide for a nursing home, you must complete a Challenge Examination Application for Nurse Aides/Medication Aide available at:

dhs.wisconsin.gov/regulations/nh/medaides-requirements.htm and mail it to:

Wisconsin Department of Health Services
Division of Quality Assurance
Attn: Pharmacy Consultant
PO Box 2969
Madison, WI 53701-2969

After receiving and reviewing your application, you will be informed of your eligibility to challenge the test out of the Wisconsin Medication Aide course. The minimum passing score for the Medication Aide Challenge Examination is 85%. For questions regarding medication aides or to obtain a list of organizations that offer an approved skilled nursing medication aide course, see dhs.wisconsin.gov/regulations/nh/medaides-requirements.htm.

Registry Reciprocity / Out-of-State Transfers

This information is for applicants who want to be entered on the WNAR through the Wisconsin Reciprocity/Out-of-State registry placement process.

Out-of-State Reciprocity

To apply for placement on the WNAR, you must complete a [WI CNA Reciprocity Form 9110WI Application](#). The application is available on the Wisconsin TMU© main page under 'APPLICATIONS'.

Please carefully read the application directions before completing and submitting the out-of-state application form. Your request for reciprocity cannot be processed if it is incomplete, illegible, or includes false statements.

Completing the online application form requires the following attachments:

1. Proof of Training and/or Employment Verification
→ The employment verification form ([9110WI-A](#)) is available within the WI CNA Reciprocity Form 9110WI Application:
2. Image of your Social Security card
3. Image of your valid US government-issued photo identification (state driver's license, passport, or other signed, current photo identification).

TRAINING PROOF: You must have completed a (minimum) 75-hour state-approved nurse aide training program (with completion date noted) to be considered for the Wisconsin Nurse Aide Registry. State registry printouts and certificates that do not include training program names or completion dates are not acceptable. [Wis. Admin. Code DHS 129.09(5)(b); Wis.Stat. § 146.40(2)(d); (2g)(a),(b)]

Acceptable proof of training includes a copy of the diploma or transcripts from the training program (with the date of completion) or a letter from the training program stating where and when you completed training. *Registry certification printouts or screenshots that do not display the name of a state-approved, minimum 75-hour training program and training completion date are not acceptable.*

If you cannot provide proof of training, you may instead include proof of qualifying employment. Your employer must verify that you worked as a nurse aide under the direction of a registered nurse (RN) or licensed practical nurse (LPN) for at least 2,088 hours in the two years preceding your application to the Wisconsin Nurse Aide Registry. Please use the [Employer Verification Form \(9110WI-A\)](#).

ALABAMA APPLICANTS: If you originally trained in Alabama more than two years ago and are *only* certified in Alabama, you must also include employment verification that you worked as a nurse aide under the direction of an RN/LPN during the previous two years. Please use the [Employer Verification Form \(9110WI-A\)](#).

Please note: Completing the online application form requires the following attachments:

1. Proof of Training and/or Employment Verification
→ The employment verification form ([9110WI-A](#)) is available within the WI CNA Reciprocity Form 9110WI Application
2. Image of your Social Security card
3. Image of your valid US government-issued photo identification (state driver's license, passport, or other signed, current photo identification)

Your application is not complete until you include all required information. Incomplete applications are invalid after 30 days.

Out-of-State Eligibility – Inactive Certification

If you are a nurse aide currently listed on another state's Registry but have an Inactive status, and you have completed an approved nurse aide training program of at least 75 hours with at least 16 hours of clinical training in another state, you must successfully pass the Wisconsin competency exam to be eligible for placement on the WNAR. To apply for placement on the WNAR, you must complete an Out-of-State application (*see directions above*). You may obtain an Out-of-State application from the [Wisconsin webpage](#) or by calling D&SDT-HEADMASTER at (888) 401-0465. It is recommended that all out-of-state candidates apply as far in advance as possible, as multiple state agencies must verify and process your application.

If you have questions about your Out-of-State registry status, please contact the DHS Nurse Aide Training and Registry staff at (608)261-9315. If you have questions about working as a nurse aide in Wisconsin, please email the Wisconsin nurse aide registry at dhswidqa_natcep@dhs.wisconsin.gov. Caregiver Program

Wisconsin's Caregiver Program responds to concerns about potential physical, emotional, and financial abuse and neglect of vulnerable citizens by caregivers in health care settings. The program applies to all caregivers, including nurse aides, who have access to residents/clients and work in facilities regulated by the Department of Health Services. The program provisions include the following.

Caregiver Background Check

Facilities must complete a caregiver background check for employees who have access to, and are responsible for, the safety and security of vulnerable residents/clients and their property. Caregivers with convictions of serious

crimes or a history of improper behavior may be barred from working in facilities regulated by the Department of Health Services.

Rehabilitation Review

Caregivers who have been convicted of serious crimes or have a finding of misconduct entered on the Caregiver Misconduct Registry may request a Rehabilitation Review to give clear evidence that a repeat of the conduct that led to their conviction is not likely. You may file a Rehabilitation Review Application with DHS at any time. You may obtain this application and other caregiver misconduct information at the Department's website at dhs.wisconsin.gov/caregiver/misconduct.htm or by contacting the DHS Rehabilitation Review Coordinator at DHSRehabReviewCoordinator@dhs.wisconsin.gov for information about your rehabilitation review status. The Rehabilitation Review panel reviews the caregiver's application and other personal and professional information. Caregivers are encouraged to meet with the Rehabilitation Review panel to answer any questions. The panel will issue a decision based on evidence of the caregiver's ability to work safely in State-regulated facilities.

Caregiver Misconduct Registry

The Department maintains a record of nurse aides and other caregivers with a substantiated finding of misconduct in the Caregiver Misconduct Registry. Misconduct includes abuse, neglect, or exploitation of a resident/client or misappropriation of a resident/client's property, as defined under Ch. DHS 13 of the Wisconsin Administrative Code. Examples include, but are not limited to:

- physical abuse: hitting, slapping, pinching, and kicking to cause harm intentionally;
- sexual abuse: harassment, inappropriate touching, or assault;
- verbal abuse: threats of harm, saying things to frighten a resident/client intentionally;
- mental abuse: humiliation, harassment, intimidation with threats of punishment or depriving a resident/client of care or possessions;
- neglect: intentional conduct of withholding care, failure to carry out a plan of care that could reasonably be expected to cause pain, injury, or death of a resident/client;
- misappropriation of property: theft of money, credit cards, jewelry, misuse of property, such as using a resident/client's phone or other personal items without consent; and
- exploitation: taking advantage of a resident for personal gain through the use of manipulation, intimidation, threats, or coercion.

For more information, visit dhs.wisconsin.gov/caregiver/misconduct.htm.

Work Limitations

Under federal regulations, nurse aides with a finding of misconduct are permanently barred from working in federally certified nursing homes and, in certain situations, may be barred from working in federally certified intermediate care facilities for individuals with intellectual disabilities (ICFs/IIDs). State regulations bar all caregivers with a finding of misconduct from working in facilities regulated by DHS unless approved under the Rehabilitation Review process.

Americans with Disabilities Act (ADA)

ADA Compliance

D&SDT-HEADMASTER certifies that it complies with the provisions of the Americans with Disabilities Act (42 U.S.C. 12101 et seq.). A nurse aide candidate with a disability may request special testing arrangements. Make this request as soon as you know you will need a special accommodation and before you apply for testing.

D&SDT-HEADMASTER and DHS must approve accommodations and cannot change the examination in any way. Complete the ADA Accommodation Request Application found on the Wisconsin TMU© main page under 'APPLICATIONS' [ADA Accommodation Request Application](#). Complete and submit this form, along with the required documentation, for review by D&SDT-HEADMASTER and DHS for any accommodations.

When scheduling your exam, please ensure you or your training program submits the ADA Accommodation Request Application well in advance to avoid delaying testing with your classmates.

NOTE: You do not need ADA approval for the Audio (oral version) knowledge examination.

ADA Accommodation Request Applications submitted without the required supporting documentation of a diagnosed disability will not be reviewed until you provide the required documentation. D&SDT-HEADMASTER or DHS will email you if further documentation or information is required, using the email address in your TMU© account.

Please allow additional time for approval. If you have questions regarding the ADA review process or specific required documentation, please call D&SDT-HEADMASTER at (888) 401-0462.

Schedule a Wisconsin Nurse Aide Exam

Your training program will enter your initial TMU© registration information online. You must log in to wi.tmutest.com and complete your demographic information. Your training program instructor will verify the name entered into TMU© against the identification you will present when you check in at a test event. Your ID must be a non-foreign government-issued, signed, unexpired photo-bearing ID. You will receive a verification form to sign during your training, attesting that there is an exact match. If you discover your ID name doesn't match your name as listed in your TMU© account, please call D&SDT-HEADMASTER at (888) 401-0462.

Once your instructor or training program enters the date you complete training into TMU©, and you have verified that all information is correct, you may schedule your exam date online at the Wisconsin TMU© webpage at wi.tmutest.com using your Email or Username and Password (see instructions with screenshots under the section **Schedule / Reschedule a Test Event**). If you cannot sign in with your email, please call D&SDT-HEADMASTER at (888) 401-0462. If you do not know your username and password, enter your email or username and click <Forgot Your Password?> (see instructions under **Forgot your Password and Recover your Account**). This will allow you to reset your password and then log in. If you cannot log in, contact D&SDT-HEADMASTER staff by calling (888) 401-0462.

If you have a DHS-issued approval-to-test letter, you will receive a username and password via email or text. Once you have received this notification, log in to your TMU© account at wi.tmutest.com, complete your demographic information, pay for your test, and select a test event and location.

Many training programs host and pre-schedule in-facility test dates for their graduating students. Your instructor will have informed you if this is the case. Before scheduling a test, verify with your instructor if the training program where you trained has already scheduled your test. Regional test seats are open to all candidates. Regional test dates and seats are posted in the dynamic test scheduler in TMU©.

Log in to the system at wi.tmutest.com using your username and password. You will follow the link from our public website's Wisconsin Nurse Aide page at hdmaster.com or the DHS website at dhs.wisconsin.gov/caregiver/nurse-

[aide/natd-registry.htm](#). Read essential notes that may be on the screen. See screenshots that follow this section for reference.

Securely processed Visa or MasterCard credit/debit card information is required when scheduling online. After paying, you can schedule and/or reschedule up to 1 business day before a scheduled test date and receive your test confirmation notification online, via text or email, or on the screen while logged in. You may log in with any Internet-connected device. To change or reschedule your test date, log in to your TMU© account at wi.tmutest.com to update no less than one (1) business day before your scheduled test date.

Candidates who self-schedule online, or those scheduled by their training programs, will receive their test confirmation notice on the screen at the time of scheduling. Candidates can view their confirmation notice at any time by logging in to their TMU© account at wi.tmutest.com. **D&SDT-HEADMASTER does not send postal mail test confirmation letters to candidates.**

To be eligible to schedule testing, you must schedule and pass a test within one year of completing your training program. After one year, you must complete another DHS-approved training program. If you have questions regarding your test scheduling, call D&SDT-HEADMASTER at (888) 401-0462.

SELF-PAY OF TESTING FEES

Testing fees must be paid before you can schedule a test date. Some training programs pre-pay testing fees for their graduating students. Your program/instructor will inform you if this is the case. Before scheduling a test, verify with your instructor if the training program has already prepaid for your test. Instructions with screenshots are provided below for paying testing fees online. Securely processed Visa or MasterCard credit/debit card information is required when paying testing fees online.

- Are caught cheating
- Refuse to follow directions
- Use abusive language or threaten others
- Disrupt the examination environment
- Are visibly impaired
- Engage in unprofessional or aggressive behavior

A report of your behavior will be sent to your training program and DHS, and you are subject to legal prosecution to the fullest extent of the law. You may not be allowed to retest for at least 6 months and may require DHS permission to retake the test.

Candidate Feedback – Exit Survey

You will receive a notification of your test results on the day your test is officially scored. A link to the exit survey will be available when you log in to your TMU© account to get your results. The survey is confidential and will not affect your test outcome. We encourage you to answer the survey questions honestly to help improve the testing process.

Test Results

After you have completed both the Knowledge and Skill Test components of the competency exam, your test results will be officially scored and double-checked. You may securely access your results in your own TMU© account at wi.tmutest.com. Official test results are available to you after 7:00PM Central Time on the day tests are scored. Upon successful completion of both components of the competency exam, your name will be placed on the WNAR. You may print a hard copy of your detailed test results. If you fail either test component, you must reapply to retake the component that you failed. Please see the [Schedule / Reschedule a Test Event](#) section.

You are eligible to test as many times as needed **within 1 year of your training program completion date**. After one year, you must complete another DHS-approved training program to be eligible to schedule further testing.

Note: Federal and State regulations allow healthcare facilities to employ students enrolled in an approved nurse aide training and competency evaluation program for up to 120 days from the beginning of employment.

- Skilled nursing facilities must follow [42 CFR 483.35\(e\)\(3\)](#).

However, if you fail either portion of the state competency exam, the facility must ensure that the following are completed before it can continue employing you to perform nurse aide duties.

- The facility provides and documents additional training, coaching, or mentoring for the student, especially in the areas they failed.
- The student cannot work alone.
- The facility documents how they ensured the competency of the student aide (knowledge practice tests if the student failed the knowledge portion, skills demonstration if they failed the skills portion, or other means of ensuring competency).

Also, if your name is not listed on the Registry by the 120th day after your date of employment, you can no longer work as a nurse aide.

Retaking the Nurse Aide Exam

You can schedule a test or a retest online by logging in to your TMU© account with your secure username and password. Once payment is made by Visa or MasterCard, you will be able to schedule. If you forget your password, use the password reset function on your TMU© login screen (see instructions under **Forgot your Password and Recover your Account**). Call D&SDT-HEADMASTER at (888) 401-0462 during business hours for assistance.

Test Result Review Requests

You may request a review of your test results or dispute any other testing condition. The purpose of this review process is to ensure fairness and accuracy in the evaluation of your test.

***PLEASE READ BEFORE FILLING OUT THE TEST REVIEW REQUEST:** Please call D&SDT-HEADMASTER at (888) 401-0462 during regular business hours, Monday through Friday, 7:00AM to 7:00PM CT, excluding Saturdays, Sundays, and Holidays, and discuss the test outcome you are questioning before committing to sending the \$25 test review request deposit fee. Once you have further details about the scoring of your test, you will often understand the scoring process and learn how you can better prepare yourself for subsequent exam attempts. If, after discussion with D&SDT-HEADMASTER staff, you still have a concern with your testing process that affected the outcome of your exam, you may submit a Test Review Request.

A \$25 non-refundable test review deposit fee applies. To request a review, complete the [Test Review Request and Payment Application](#), available on the Wisconsin TMU© main page under 'APPLICATIONS' (before you log in to your account) at wi.tmutest.com. Test Review Requests must be received **within three (3) business days** from the official scoring of your test (excluding Saturdays, Sundays, and holidays). Late requests will be denied and will not be considered.

Since one qualification for certification as a nurse aide in Wisconsin is demonstrated by examination of minimum nurse aide knowledge and skills, the likely outcome of your review will determine who pays for any re-tests that may be granted. If, after investigation, the review finding is in your favor, you will be refunded the \$25 test review deposit. If the review's finding is *not in your favor*, the \$25 test review deposit will stand, and the fee is non-refundable.

D&SDT-HEADMASTER will review your detailed recollection, your knowledge test markings, and any skill task measurements you recorded at the time of your test, in addition to reviewing markings, notations, and measurements recorded by the RN Test Observer at the time of your test. We will interview the RN Test Observer, Actor, or Knowledge Test Proctor about the facts detailed in your dispute documentation. D&SDT-HEADMASTER will re-check the scoring of your test and may contact you and/or the RN Test Observer, Actor, and/or Knowledge Test Proctor, and other candidates who were on-site at your test event for any additional information about the test event.

D&SDT-HEADMASTER cannot review test results or reviews with the candidate's instructor/training program. After a candidate reaches age 18, D&SDT-HEADMASTER will discuss test results or test reviews only with the candidate. D&SDT-HEADMASTER will not review test results or reviews with family members or anyone else on the candidate's behalf once the candidate is 18. D&SDT-HEADMASTER will complete your review request within ten business days of receiving your timely review request and will email the review results to your email address and DHS.

Skills Demonstration Exam

The Skill Test aims to evaluate your performance when demonstrating Wisconsin-approved nurse aide skill tasks. You will find a complete list of possible skill tasks in this handbook.

- Be sure you understand all instructions you read while in the waiting area before you begin your skill task demonstrations. You may not ask questions once the Skill Test begins and the timer starts. Once the Skill Test begins, the RN Test Observer may not answer questions.
- Each of your randomly selected three (3) or four (4) tasks will have scenarios associated with them. The RN Test Observer will read the scenarios to you immediately before you are asked to do each task.
- You will be given no more than thirty **(30) minutes** to complete your three (3) or four (4) tasks. After 15 minutes have elapsed, you will be alerted that 15 minutes remain.
- Listen carefully to all instructions given by the RN Test Observer. You may request to have any of the scenarios repeated **at any time** during your Skill Test up until you run out of time or tell the RN Test Observer that you are finished with your skill task demonstrations.
- You must correctly perform all **key** steps (in bold font) and 80% of all non-key steps in each task assigned to pass the Skill Test. If you believe you made a mistake while performing a task, say so. You will need to demonstrate the step or steps on the task you believe you performed incorrectly for the correction to be noted for the step. You may repeat or correct **any steps you believe you have performed incorrectly** during your allotted thirty (30) minutes or until you tell the RN Test Observer you are finished with the Skill Test.
- Skill task steps are generally not order-dependent unless the words BEFORE or AFTER are used in a step.
- At any time during any skill, you may direct the RN Test Observer to move anywhere needed to assist you in providing safety for the resident.
- **All steps must actually be demonstrated. Steps that are only verbalized WILL NOT COUNT.**

Skill Exam Tasks

You will be assigned **one** of the following mandatory tasks as your first task:

- Assist a Resident with a Bedpan (Modified) with Required Hand Washing
- Catheter Care for a Female Resident with Required Hand Washing [DEMONSTRATED ON MANIKIN]
- Don an Isolation Gown and Gloves, Empty a Urinary Bag, Measure and Record Output, and Doff the Gown and Gloves with Required Hand Washing
- Perineal Care for a Female Resident with Required Hand Washing [DEMONSTRATED ON MANIKIN]

Note: Handwashing is embedded in each mandatory task and must be demonstrated at the end of each.

You will also receive an additional two (2) or three (3) randomly selected tasks from the Skills Task Listing below. These selected tasks will make up your personalized and unique skill test. Each skill test, randomly assigned by the TMU© skill test assignment algorithm, will be comparable in overall difficulty, which is why some skill tests will have a different number of tasks.

Skill Tasks Listing

To receive credit, you must perform every step and demonstrate it during your skill test demonstration. The steps listed for each task are required for a nurse aide candidate to successfully demonstrate minimum proficiency in the skill task for the RN Test Observer.

All tasks will be performed on a live resident actor, except for Catheter Care and Perineal Care, which will be demonstrated on a manikin. You will be scored only on the steps listed.

You must score **80%** on each task **without missing any key steps** (the **Bolded** steps) to pass the skill component of your competency evaluation. If you fail the Skill Test, one of the tasks on your retest will be a task you previously failed. There will always be only one of the four mandatory tasks to start each Skill Test. The other tasks included in your Skill Test are randomly chosen so that every Skill Test is comparable in difficulty and has an average time to complete.

Note: The skill task steps included in this handbook are discrete skill task steps used for objective testing purposes only. They are not intended to provide complete care that includes the best care practiced in an actual work setting.
