Introduction

In 1987, the Nursing Home Reform Act was adopted by Congress as part of the Omnibus Budget Reconciliation Act (OBRA '87). It was designed to improve the quality of care in long-term health care facilities and to define training and evaluation standards for nurse aides who work in such facilities. Each state is responsible for following the terms of this federal law.

As defined in the OBRA regulations, a nurse aide competency evaluation program provides specific standards for nurse aide (NA) related knowledge and skills. The purpose of a nurse aide competency evaluation program is to ensure that candidates who are seeking to be nurse aides understand these standards and can competently and safely perform the job of an entry-level nurse aide.

There are two parts to the nurse aide competency examination; a multiple-choice knowledge test, and a skill test. Candidates must complete an approved Wisconsin Nurse Aide training program, pass both parts of the exam and meet all Wisconsin Department of Health Services (DHS) requirements to be listed on the Wisconsin Nurse Aide Registry (WNAR).

Wisconsin has approved D&S Diversified Technologies LLP (D&SDT)-HEADMASTER LLP to provide testing and scoring services for the nurse aide competency exam and to maintain the Wisconsin Nurse Aide Registry.

Contact D&SDT-HEADMASTER toll-free at (888)401-0462 for questions related to testing and scoring services or (888)401-0465 for questions related to the WNAR. Additional information is available at hdmaster.com.

This handbook is designed to provide information related to testing and registry services in Wisconsin and help you prepare for the Wisconsin nurse aide competency examination or renew your current NA certification.

Registry

The Wisconsin Nurse Aide Registry (WNAR) lists the names of nurse aides who, through training, testing and experience, meet federal and/or state requirements to work as a nurse aide in Wisconsin. The Registry lists the type of regulated facilities that a nurse aide is eligible to work in and indicates any special certifications held by a nurse aide. Additionally, the Registry includes substantiated findings of caregiver abuse, neglect, misappropriation of client property, or exploitation involving a caregiver at a DHS regulated facility.

A nurse aide candidate, upon successful completion of training, passing both the knowledge and skills portions of the competency exam, and meeting federal and/or state requirements will be listed on the WNAR. Review the Nurse Aide Competency Exam section below to help prepare for the exam.

Registry Maintenance

Once placed on the WNAR, it is your responsibility to maintain your demographic information so that renewal notifications/alerts can be delivered to you in a timely manner. This is done by logging into your TMU© account at wi.tmuniverse.com. Your email address is your default username. If you're new to the system or have forgotten your password, **see instructions under 'Forgot your Password and Recover your Account'**. A valid email address will be sent a link to follow and reset/create a password. Renewal reminders are emailed to your email address of record and/or texted to your SMS capable phone so it is important to keep your contact information up to date.

You can check your registry status at any time, update your address and phone number, and check your eligibility expiration date from any Internet capable device.

Registry name changes (marriage/divorce, etc.) must be verified with appropriate documentation. Copies of documentation must be emailed wisconsin@hdmaster.com, faxed (406)442-3357, or mailed to D&SDT-HEADMASTER, PO Box 6609, Helena, MT 59604.

Registry Renewal

To maintain eligibility to work in a federally certified facility (Medicare and/or Medicaid certified), you must renew your federal eligibility every 24 months. To be eligible to renew, you must work for pay as a nurse aide in a health care setting such as a nursing home, hospital, home health agency, assisted living or personal care agency for at least eight (8) hours during the previous 24 months. Paid work hours must be completed under supervision of a registered nurse or licensed practical nurse. Please note, self-employment and private-duty experience are not recognized as work experience eligible to maintain federal eligibility.

You will be eligible to renew your federal certification 90 days prior to the certification expiration date. You will begin receiving notifications via email and SMS informing you of your eligibility and directing you where to submit your employment verification. To renew your eligibility, you will login to TMU© at wi.tmuniverse.com and list your work hours and where you were employed. An email verification link will be sent to the employer contact on record. When the employer verifies your listed work experience, your federal eligibility will be extended an additional 24 months. Please note, out of state employers are not listed in TMU© but may still be eligible to renew certification. Your employer should contact DHS to confirm work as a nurse aide for pay. DHS will review to determine if it meets Wisconsin's requirements and extend federal eligibility accordingly.

Working in a hospital or a State licensed facility only (not federally certified Medicare and/or Medicaid provider) does not require you to report your employment history. This means that your federal eligibility to work in a federally certified facility will lapse, but you still may work in a State licensed facility and be listed on the WNAR as State certified only. Hospitals or State licensed facilities may request that nurse aides report their employment history to maintain federal eligibility by logging into TMU© at wi.tmuniverse.com for verification of work hours through TMU© employer verification link.

Under federal regulations, a nurse aide becomes ineligible for employment in a federally certified (Medicare and/or Medicaid certified) nursing home, home health agency or hospice if they do not perform at least 8 hours of nursing related services for pay in a health care setting during a period of 24 consecutive months. To re-establish federal employment eligibility on the WNAR, you must successfully pass both components of the approved Wisconsin nurse aide competency examination. **Contact D&SDT-HEADMASTER for authorization to schedule the competency test to regain federal employment eligibility status.**

Nurse Aide / Medication Aide Registry Status

The Wisconsin Department of Health Services includes both nurse aides (NA) and medication aides (MA) on the WNAR.

Nurse Aide: Upon completing a DHS approved nurse aide training program and successfully passing the required knowledge and skill exams or completing an alternate DHS approved route, individuals will be listed on the WNAR

at wi.tmuniverse.com. A newly trained nurse aide candidate must successfully pass both the knowledge and skill exams within one (1) year of successfully completing a training program.

Medication Aide: A nurse aide in good standing on the WNAR who provides direct nursing related duties and has completed a Wisconsin-approved medication aide course may administer certain medications in long-term care facilities. To be eligible to complete a medication aide course and be listed on the WNAR as a MA, a nurse aide must:

- Be at least eighteen (18) years of age;
- Have a high school diploma, High School Equivalency Diploma (HSED), or a General Education Diploma (GED);
- Be listed on the Nurse Aide Registry, with current eligibility to work in federally certified facilities;
- Have at least 2000 hours experience in direct patient care in the past three (3) years;
- Have worked a minimum of forty (40) hours, within the last ninety (90) days or by the time the course clinical experience begins, caring for the same residents the student will be working with during the medication aide clinical experience;
- Be recommended in writing by the director of nursing and the administrator of the agency in which the student will be working during clinical experience; and
- Be recommended in writing by two (2) licensed charge nurses, one of whom must be a registered nurse.

If you successfully complete an approved medication aide course, your training program will assist you in submitting a Medication Aide Registry Application. Your medication aide status will be added to your record on the WNAR.

Training Exemptions: You may be exempt from taking a medication aide course if you are one of the following:

- Current nursing student who has successfully completed a pharmacology course;
- Graduate nurse who does not hold a license; or
- Nurse aide who has been a medication aide in a nursing home in another state and has taken a medication aide training course that is determined to be equivalent to the Wisconsin-approved medication aide training course.

If you are one of the above, and you wish to become a medication aide for a nursing home, you must complete a Challenge Examination Application for Nurse Aides/Medication Aide available at:

dhs.wisconsin.gov/regulations/nh/medaides-requirements.htm and mail it to:

Wisconsin Department of Health Services
Division of Quality Assurance
Attn: Pharmacy Consultant
PO Box 2969
Madison WI 53701-2969

After your application is received and reviewed, you will be informed of your eligibility to challenge test out of the Wisconsin medication aide course. The minimum passing score for the Medication Aide Challenge Examination is 85%. For questions regarding medication aides or to obtain a list of organizations that offer an approved skilled nursing medication aide course, see dhs.wisconsin.gov/regulations/nh/medaides-requirements.htm

Caregiver Program

Wisconsin's Caregiver Program responds to concerns about potential physical, emotional and financial abuse and neglect of vulnerable citizens by caregivers in health care settings. The program applies to all caregivers, including nurse aides, who have access to residents/clients and work in facilities regulated by the Department of Health Services. The program provisions include:

Caregiver Background Check

Facilities must complete a caregiver background check for employees who have access to and are responsible for the safety and security of vulnerable residents/clients and their property. Caregivers with convictions of serious crimes or a history of improper behavior may be barred from working in facilities regulated by the Department of Health Services.

Rehabilitation Review

Caregivers who have been convicted of serious crimes or have a finding of misconduct entered on the Caregiver Misconduct Registry may request a Rehabilitation Review to give clear evidence that a repeat of the conduct that led to their conviction is not likely. A Rehabilitation Review Application may be filed with DHS at any time. You may obtain this application and other caregiver misconduct information at the Department's website at dhs.wisconsin.gov/caregiver/misconduct.htm or by contacting the Department's Office of Legal Counsel at (608)266-8428. The Rehabilitation Review panel reviews the caregiver's application and other personal and professional information. Caregivers are encouraged to meet with the Rehabilitation Review panel to answer any questions. The panel will issue a decision based on the evidence of the caregiver's ability to safely work in state regulated facilities.

Caregiver Misconduct Registry

The Department keeps a record of nurse aides and other caregivers who have a substantiated finding of misconduct on the Caregiver Misconduct Registry. Misconduct includes abuse, neglect or exploitation of a resident/client or misappropriation of a residents/client's property, as defined under Ch. DHS 13 of the Wisconsin Administrative Code. Examples include, but are not limited to:

- physical abuse: hitting, slapping, pinching, and kicking to intentionally cause harm;
- sexual abuse: harassment, inappropriate touching, or assault;
- verbal abuse: threats of harm, saying things to intentionally frighten a resident/client;
- mental abuse: humiliation, harassment, intimidation with threats of punishment or depriving a resident/client of care or possessions;
- neglect: intentional conduct of withholding care, failure to carry out a plan of care that could reasonably be expected to cause pain, injury or death of a resident/client;
- misappropriation of property: theft of money, credit cards or jewelry, misuse of property, such as using a residents/client's phone or other personal items without consent; and
- exploitation: taking advantage of a resident for personal gain through the use of manipulation, intimidation, threats, or coercion.

For more information: visit dhs.wisconsin.gov/caregiver/misconduct.htm

Work Limitations

Under federal regulations, nurse aides with a finding of misconduct are permanently barred from working in federally certified nursing homes and, in certain situations, may be barred from working in federally certified intermediate care facilities for individuals with intellectual disabilities (ICFs/IIDs). State regulations bar all caregivers with a finding of misconduct from working in facilities regulated by DHS, unless approved under the Rehabilitation Review process.

Americans with Disabilities Act (ADA)

ADA Compliance

D&SDT-HEADMASTER certifies that it complies with the provisions of the Americans with Disability Act (42 U.S.C. 12101 et seq.). A nurse aide candidate who has a disability may request special arrangements for testing. This request should be made as soon as it is known that a special accommodation will be needed, and **before** a candidate applies for testing. Accommodations must be approved by D&SDT-HEADMASTER and DHS and cannot change the examination in any way. The request for accommodations can be found on the [D&SDT-HEADMASTER webpage](#) or by clicking on this link: [ADA Accommodation Form 1404](#). This form must be submitted to D&SDT-HEADMASTER with required documentation listed on the second page of the ADA application in order to be reviewed by D&SDT-HEADMASTER and DHS for any accommodations. Email your completed ADA accommodation form and required documentation to wisconsin@hdmaster.com.

When you are scheduling to take your exam, please make sure you or your training program has submitted the ADA Accommodation Form(s) far enough in advance to not delay testing with your classmates.

NOTE: You do not need ADA approval to take the Audio (oral version) knowledge examination.

If you have any questions regarding the ADA review process or specific required documentation, please call D&SDT-HEADMASTER at (888)401-0462. ADA request forms submitted without supporting documentation of a diagnosed disability will not be accepted or reviewed.

Please allow additional time for your request to be approved.

You may login with any Internet connected device. To change or reschedule your test date, login to TMU© at wi.tmuniverse.com to update no less than 3 business days before your scheduled test date.

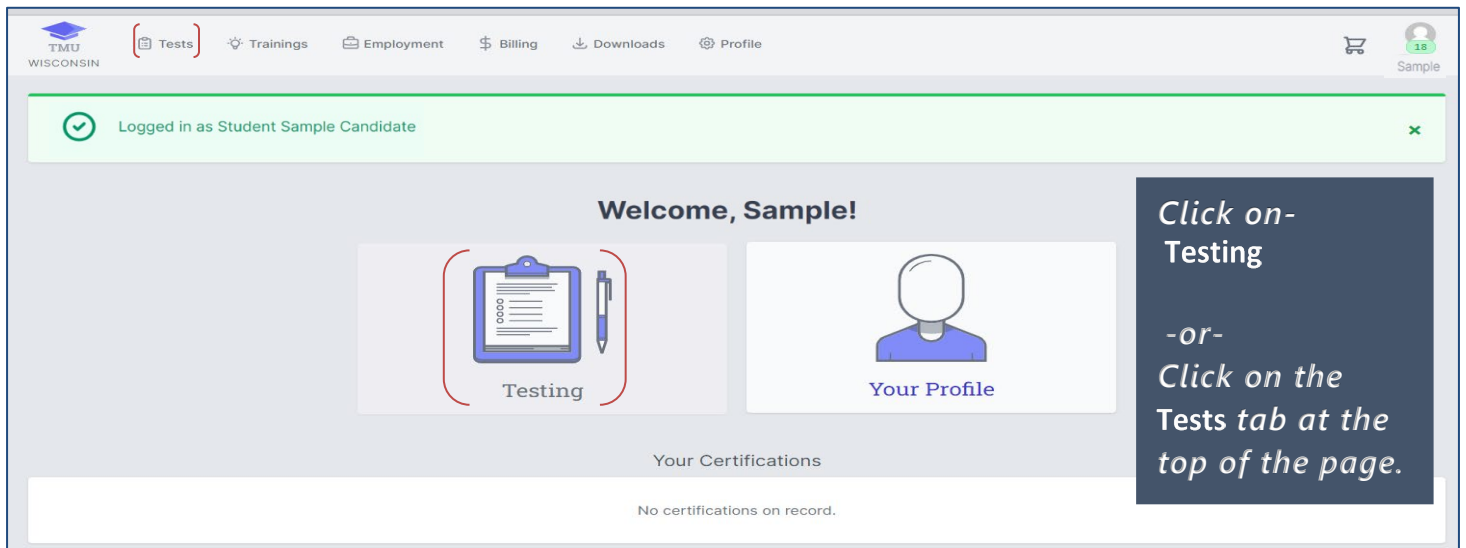

Candidates who self-schedule online, or those scheduled by their training programs, will receive their test confirmation notice on the screen at the time they are scheduled online. Candidates can also view their confirmation notice any time by logging into their TMU© account at wi.tmuniverse.com. **D&SDT-HEADMASTER does not send postal mail test confirmation letters to candidates.**

A refund request of testing fees paid must be made in writing by filling out and submitting the [Refund Request Fillable Form 1405](#) on D&SDT-HEADMASTER's main webpage at www.hdmaster.com at least **seven (7) full business days** prior to your scheduled test event and up to two (2) business days preceding a scheduled test date (excluding Saturdays, Sundays and Holidays). You will forfeit all fees paid and must submit a new testing fee to schedule yourself into a new test event.

These fees partially offset D&SDT-HEADMASTER cost incurred for services requested and resulting work that is performed. If a reschedule or refund request is not received before the two (2) full business day preceding a scheduled test event, excluding Saturdays, Sundays, and Holidays (see examples under Reschedules and Refund of Testing Fees Paid), a NO SHOW status will exist. You then must log into TMU@ at <https://wi.tmuniverse.com>, re-pay and re-schedule into a new test event of your choice.

Candidate Feedback – Exit Survey

You will receive a notification of your test results on the day your test is officially scored. A link to the exit survey will be available when you log in to your record in TMU© to get your results. The survey is confidential and will not have any bearing on the outcome of any test. You are encouraged to complete the survey questions with honest feedback regarding the examination process to help improve the testing process.

Test Results

After you have completed both the Knowledge Test and Skill Test components of the competency exam, your test results will be officially scored and double checked. Official test results are available to you the next business day after your test event. You may check your test results on-line by going to wi.tmuniverse.com, and logging in with your username and password. Upon successful completion of both components of the competency exam, your name will be placed on the WNAR. You may print a hard copy of your results and check the payer of record as listed in your payment accounting record in TMU©. If you fail either test component, you must reapply to retake the component that you failed. Procedures for reapplying and detailed test results are included in the link emailed to your email address of record.

You are eligible to test as many times as needed **within one year of your date of training program completion**. After one year, you must complete another DHS approved training program in order to be eligible to schedule further testing.

Note: Federal and State regulations allow health care facilities to employ students enrolled in an approved nurse aide training and competency evaluation program for up to 120 days from the beginning of employment. **However, if you fail either portion of the state competency exam, the facility must ensure the following are completed to continue to employ you to perform nurse aide duties.**

- The facility provides and documents additional training, coaching or mentoring given to the student, especially in the areas they failed.
- The student cannot work alone.
- The facility documents how they ensured competency of the student aide (knowledge practice tests if the student failed the knowledge portion, skills demonstration if they failed the skills portion, or other means ensuring competency).

Also, if your name is not listed on the Registry by the 120th day from the date of employment, you are no longer able to work as a nurse aide.

Retaking the Nurse Aide Exam

You can schedule a test or a re-test online at wi.tmuniverse.com by logging in with your secure username and password. Once payment is made by Visa or MasterCard, you will then be able to schedule. If you forget your password, use the password reset function on your TMU© login screen, **(see instructions under 'Forgot your Password and Recover your Account')**. Call D&SDT-HEADMASTER at (888)401-0462 during business hours, whenever assistance is needed.

Test Result Review Requests

You may request a review of your test results or dispute any other condition of your testing. **There is a \$25 test review deposit fee.** To request a review, you must submit the PDF fillable [Test Review Request and Payment Form 1403](#) available on D&SDT-HEADMASTER's main webpage at www.hdmaster.com (before you get to the Wisconsin NA webpage). Submit the Test Review Fee of \$25 (MasterCard, Visa or debit card) and a detailed explanation of why you feel your dispute is valid (upload with Form 1403) via the PDF fillable Test Review Request and Payment Form 1403 **within three (3) business days** from official scoring of your test (excluding Saturdays, Sundays and Holidays). Late requests will be returned and will not be considered.

PLEASE READ BEFORE FILLING OUT THE TEST REVIEW REQUEST: Please call D&SDT-HEADMASTER at (888)401-0462 during regular business hours, Monday through Friday, 7:00AM to 7:00PM CST, excluding Saturdays, Sundays and Holidays, and discuss the test outcome you are questioning before committing to sending the \$25 test review request deposit fee. Many times, once you have further details about the scoring of your test, you will understand the scoring process and learn how you can better prepare yourself for subsequent exam attempts. If, after discussion with D&SDT-HEADMASTER staff, you still have a concern with your testing process that affected the outcome of your exam, you may submit a Test Review Request.

Since one qualification for certification as a nurse aide in Wisconsin is demonstration by examination of minimum nurse aide knowledge and skills, the likely outcome of your review will determine who pays for any re-tests granted. If the results of the review are in your favor, D&SDT-HEADMASTER will pay your re-test fee. D&SDT-HEADMASTER will review your detailed recollection, your knowledge test markings and any skill task measurements you recorded at the time of your test, in addition to reviewing markings, notations and measurements recorded by the RN Test Observer at the time of your test. We will interview the RN Test Observer, Actor or Knowledge Test Proctor about the facts detailed in your dispute documentation. D&SDT-HEADMASTER will re-check the scoring of your test and may contact you and/or the RN Test Observer, Actor and/or Knowledge Test Proctor and other candidates who were on site at your test event for any additional information about the test event.

D&SDT-HEADMASTER will not review test results or reviews with the candidate's instructor/training program. After a candidate reaches the age of 18, D&SDT-HEADMASTER will only discuss test results or test reviews with the candidate. D&SDT-HEADMASTER will not review test results or reviews with family members or anyone else on behalf of the candidate once the candidate is 18 years of age. D&SDT-HEADMASTER will complete your review request within 10 business days of the receipt of your timely review request and will email the review results to your email address and to DHS.

Skills Demonstration Exam

The purpose of the Skill Test is to evaluate your performance when demonstrating Wisconsin approved nurse aide skill tasks. You will find a complete list of possible skill tasks in this handbook.

- Be sure you understand all instructions you read while in the waiting area before you begin your skill task demonstrations. You may not ask questions once the Skill Test begins and the timer starts. Once the Skill Test begins, the RN Test Observer may not answer questions.
- Each of your randomly selected three (3) or four (4) tasks will have scenarios associated with them. The scenarios will be read to you by the RN Test Observer immediately before you are asked to do each task.
- You will be given no more than thirty **(30) minutes** to complete your three (3) or four (4) tasks. After 15 minutes have elapsed, you will be alerted that 15 minutes remain.
- Listen carefully to all instructions given by the RN Test Observer. You may request to have any of the scenarios repeated **at any time** during your Skill Test up until you run out of time or tell the RN Test Observer that you are finished with your skill task demonstrations.
- You must correctly perform all of the **key** steps (in bold font) and 80% of all non-key stepson each task assigned in order to pass the Skill Test. If you believe you made a mistake while performing a task, say so. You will need to demonstrate the step or steps on the task you believe you performed incorrectly for the correction to be noted for the step. You may repeat or correct **any step** or **steps** you believe you have

performed incorrectly at **any time** during your allotted thirty (30) minutes or until you tell the RN Test Observer you are finished with the Skill Test.

- Skill task steps are generally not order dependent, unless the words BEFORE or AFTER are used in a step.
- At any time during any skill, you may direct the RN Test Observer to move anywhere needed to assist you in providing safety for the resident.
- **All steps must actually be demonstrated. Steps that are only verbalized WILL NOT COUNT.**

Skill Exam Tasks

You will be assigned **one** of the following mandatory tasks as your first task:

- Bedpan and Output with Required Hand Washing
- Catheter Care with Required Hand Washing [DEMONSTRATED ON MANIKIN]
- Isolation Gown & Gloves - Empty Urinary Drainage Bag - with Required Hand Washing
- Perineal Care of a Female with Required Hand Washing [DEMONSTRATED ON MANIKIN]

Note: Hand washing is embedded in each of the mandatory tasks and must be demonstrated at the end of each mandatory task.

You will also receive additional two (2) or three (3) randomly selected tasks from the **Skills Task Listing** below. These selected tasks will make up your personalized and unique skill test. Each skill test randomly assigned by the TMU© skill test assignment algorithm will be comparable in overall difficulty. That is why some skill tests will have a differing number of tasks.

Skill Tasks Listing

Every step must actually be performed and demonstrated during your skill test demonstration in order to receive credit. The steps that are listed for each task are the steps required for a nurse aide candidate to successfully demonstrate minimum proficiency of the skill task for the RN Test Observer. The steps will be performed on a live resident actor for all of the tasks with the exception of the Catheter Care and Perineal Care tasks, which will be demonstrated on a manikin. You will be scored only on the steps listed. You must have a score of 80% on each task **without missing any key steps** (the **Bolded** steps) to pass the skill component of your competency evaluation. If you fail the Skill Test, one of the tasks on your retest will be a task you previously failed. There will always be only one of the four mandatory tasks to start each Skill Test. The other tasks included on your Skill Test are randomly chosen so that every Skill Test is comparable in difficulty and average length of time to complete.

Note: The skill task steps included in this handbook are the discrete skill tasks steps used for objective testing purposes only. The steps included herein are not intended to be used to provide complete care that would be inclusive of best care practiced in an actual work setting.
